

## BLOG TUTORIAL

There are **two ways** of participation in a blog;

- Adding **comments** about the posts that you can see in the blog
- **Uploading posts** (texts, photos, videos...). In this case, you need to be an author, and you can do it only if I invite you.

It would drive me crazy if I have to invite all our Comenius students. That's why I think that the best thing to do is appoint only one teacher per school, who will be the responsible to upload their students' post.

You must follow this steps:

1.- It is necessary to have an e-mail of Google (something **@gmail.com**). When you have it, send it to me in order to give you the permission to upload posts in the blog.

**Advice:** It would be a good idea to create a new gmail account for this activity because our students need both, the name and password, to log in and they are needed to upload to the blog post; another possibility is to make the teacher responsible to post up all the things their students want to.

2.- When you send me your gmail account, I invite you to participate in the blog and you will receive, in this email account, a message like this:

**Te han invitado a participar en Do it for the future.**
